Re: Demand to Cease and Desist Illegal Eviction Procedures of Case #NC55612 Filed in the Superior Court of California In and For the County of Butte Upon Evidenced DISCRIMINATION in Direct Violation the RIGHTS of All Citizens Protected by the American's with Disabilities Act

I, Melinda Lee Daniel, have filed a complaint with the State of California Housing Finance Agency via the Federal Housing and Urban Development Case#.

I feel that I was discriminated against because of my mental illness. I have lived in this apartment community for 16 years without a problem. In July of this year to present, I suffered multiple psychotic episodes/manic breakdowns due to the stress put upon me by my Property Management Company. I had a guest staying with me and he was not allowed to stay there. They put constant pressure on me until he finally left in August of 2015. I have since made two suicide attempts.

I feel, that, had had I had the opportunity and the knowledge, I would have filed this back in August. I feel discriminated against because I used poor judgement due to my mental state. Please take this into consideration when making any decisions regarding this case.

Your anticipated cooperation in this matter is both appreciated and expected.

Sincerely,

Melinda L. Daniel
